DYSPEPSIA.

DR. HUTCHINGS'

VEGETABLE DYSPEPSIA BITTERS.

THE MOST POPULAR FAMILY MEDICINE OF THE
AGE.

Used by Physicians of High standing.

These BITTERS relieve all morbid secretions,
purify the blood, give great tone and vigor to the
digestive organs, fortify the system against all fa-
cile dyspepsia, can be taken with safety, at no time
detracting the patient, being grateful to the most
delicate stomachs and remarkable for their cheer-
ful invigorating, strengthening, and restorative
properties, and an invaluable and sure remedy for
the cure.

DYSPEPSIA IN ITS WORST FORM.

Also, liver complaints, jaundice, heartburn, con-
stipation, flatulency, distention of the skin, liver
and kidneys, loss of appetite, low spirits, nervous
headache, dizziness, palpitation of the heart, sick-
ing and fullness of weight at the stomach, and all
other diseases caused by an impure state of the
blood, liver, &c., which tend to debilitate and
weaken the system.

Females who suffer from a morbid and unma-
tured condition, will find this medicine of
INESTIMABLE VALUE.

In all cases of General Debility this Medicine
ACTS LIKE A CHARM.

The following certificate is from an old gen-
tleman who readily acknowledges the Bitters the
only thing that keeps him alive.

Dear Sir—I hereby offer you a willing testi-
mony to your valuable Bitters; I hardly know
where to find words to thank you for the good it
has done me. I would not be without it on any
account, and heartily believe that it is the only
thing that keeps me alive.

I have recommended it to many of my friends;
they all speak of it in the highest terms, which it
richly deserves.

You are at liberty to refer any one to me as re-
garding your valuable compound.

WALTER SIMONSON,

63 Cornhill street, Waltham, Mass.

Read the following from an eminent physician:

The undersigned being acquainted with some of
the ingredients of Hutchings' Vegetable Dyspepsia
Bitters, and having used it for some time in his
practice with every desired effect, he recommends
this medicine from the certainty of its effect, and
gives it a preference over all preparations in medi-
cine for that distressing complaint, Dyspepsia.

T. HANDEBERG, M. D.

No. 1 Beach street, N. Y.

From Luther A. Wyman, Esq., late President
of New York Musical Society, of Brooklyn:

The undersigned was afflicted with Dyspepsia
of the worst form for one year and a half, during
a greater portion of which time he made use of no
remedies, but suffered the disease to take care of
itself; until he was recommended to try Hutch-
ings' Dyspepsia Bitters; he very soon derived
benefit from the use of a few bottles of this medi-
cine and now considers himself entirely well.

The undersigned has every confidence in the
efficacy of Hutchings' Bitters for the cure of this
disease, and dangerous complaint, and he has no
hesitation in recommending it as a most valuable
medicine.

N. York, Sept. 3, 1849. L. B. WYMAN,

35 Building Ship.

The following certificate is from Mr. Brady, the
celebrated Dyeing Expert:

Having been afflicted very severely with Dys-
pepsia, together with extreme weakness he was
advised to take Hutchings' Dyspepsia Bitters;
and have every reason to believe it has perfectly
cured me. I have felt no symptoms of a return of
the disease and believe from the effect it had on
me that it will cure the worst cases of Dyspepsia.

M. B. BRADY,

No. 205 Broadway, N. Y.

The Proprietor of this medicine has received
many other certificates of cures, equally remark-
able, of the various diseases for which this prepa-
ration is applicable; but the above are deemed ne-
cessary to satisfy any unprejudiced mind of its
value and superiority above all other preparations.
Principal office, 122 Fulton-st., N. Y., up
stairs.

Price, 50 cents per bottle, or 6 bottles for \$2.50.

HUTCHINGS' VEGETABLE DYSPEPSIA BIT-
TERS.—THE PROOF! THE PROOF!—An

assortment of conclusive facts that cluster around this
incomparable preparation, establishing its value
as a tonic and restorative, are such as would pre-
vent any incredulous questioning its efficacy.

In all cases of disease of the stomach, whether
acute or chronic, it may be recommended for its
soothing, cordial and restorative influence. Dys-
pepsia, heartburn, loss of appetite, uneasiness in
the epigastric region, flatulency of the heart, dim-
ness of sight, swimming in the head, hypochon-
dria, indigestion, nervous tremors, re-
laxation and debility, &c., are relieved by the
Bitters in a very short space of time; and a per-
severance in their use never fails to work a thor-
ough cure.

LITTLE'S LIVING AGE.

R. LITTLE & Co., cor. of Tremont and Broad-

field streets, Boston.

This work is conducted in the spirit of Little's

Museum of Foreign Literature, (which was favor-
ably received by the public for twenty years) but
as it is twice as large, and appears so often, the
work not only gives spirit and freshness to it, but
many things which were excluded by a monthly
delay, but which are extending the scope and val-
ue of a greater and more attractive variety, is also
to increase the value and substantial part of his
literary, historical, and political harvest, as fully
to satisfy the wants of the American reader.

The elaborate and richly illustrated of the El-
burgh, Quarterly, and other Reviews; and B. W.
would be noble criticisms on Poetry, has been pub-
lished in a handsome, highly wrought, and a vir-
tue of descriptions of mail and in a series of
and the contributions to Literature, History, and
Common Life, by the sagacious Spectator, the
sparkling Examiner, the judicious Athenaeum, the
lucid and comprehensive Britannia, the sober and
respectable Christian Observer, these are inter-
mixed with the Military and Naval reminiscences
of the Dublin Courier, New Monthly Magazine,
Tales, Ainslie's, &c., &c., and a series of Maga-
zines, and of the most admirable Journals. It
does not require it is worth his dignity to borrow
it and wisdom from such a book, which he thinks
it good enough, make one of the best of the
Times.

This new work has been a Europe, Asia, and
Africa, and is a most valuable and will give
many a new and interesting view of the world.
It is a most valuable and will give many a new
and interesting view of the world.

And this is not because of their nature connection
with the world, but because the authors have

The steamer *Empire State* has been thoroughly overhauled and put in perfect order, and is now on the route between New York and Fall River. She has been painted and newly decorated, and presents a beautiful appearance, looking as well, if not better, than she did the first time she took her place on the line. Everything is in excellent order and condition, and she is justly entitled to the appellation of a floating palace. She is commanded by Capt. Benjamin Drayton, an experienced man whose whole life has been spent in steamboats on this route, and who is thoroughly conversant with everything that appertains to a boat, in all its various departments.

Mr. Chace, the accomplished and gentlemanly Clerk, is also at his post. He is an universal favorite with the travelling public, and is justly entitled to the very general respect and friendship which he enjoys.

Mr. McGowan, the Steward, was formerly on the Eastern route, where he acquired a reputation as an excellent caterer for the most fastidious appetites. It is sufficient to say that Mr. McGowan is equally popular on this route.

Mr. Munro, of Munro's Express, is always to be seen about the boat, with his irresistibly bland smile, and his pleasant voice, making friends of all whom he meets.

The servants are prompt and attentive, and faithful in the discharge of their duties. On the whole, the *Empire State* cannot be surpassed; she is a noble seacraft, guided by skillful and experienced pilots; and persons may take passage in her, in sunshine or storm, with the fullest confidence that they are safe. We trust that she will have a prosperous season.

By an advertisement in another column it will be seen that five small boys—run away from Block Island, on Friday evening last, in a small row boat, about 10 feet keel. It is not known what their object was in going away or where they have gone; and as the sea was rough at the time, it is feared that they have been swamped. The boat had a mast and sail attached, but they did not belong to her. The word "Rescue" was painted on her stern side. The eldest of the boys was 13 years of age. They may have reached the shore, or been picked up by some passing vessel. Any person who can give information in regard to them to their distressed friends will be liberally rewarded. Any information may be sent to this office. Editors will confer a favor upon the friends of the boys by calling attention to the matter.

GEN. JAMES OF RHODE ISLAND.—This gentleman is claimed by many as a Whig. We think this is a mistake, or that he is a peculiar kind of a Whig.—We gather our opinion from this fact—that it was a cut and dried matter with the General and the Democrats of Rhode Island, that in the event of a failure of election as Senator the distinguished gentleman was to receive the nomination of Governor.—*Boston Bee*.

The wife, daughter and father of President Fillmore, arrived at the Irving House, New York, Friday, on their way from Washington to Buffalo.

The steamship *Ohio* arrived at New Orleans from Chagres, on the 9th with 360 passengers and the mails.

APPROPRIATE.—The Boston *Commonwealth* calls Cass Sumner "the impossible Senator." He may be put on the "hope on, hope ever" category.

7 days later from Europe.

The *Asia* arrived at New York Friday morning, with intelligence from Europe to the 1st inst., one week later than previous advices.

The Ministerial crisis still continued. Lord Stanley had made an attempt to form a new Cabinet, but failed.

The Standard of the 28th February, says:—

"The country will be sorry to hear that Lord Stanley has failed in forming a ministry; and has, in consequence, restored to Her Majesty the commission with which she had graciously entrusted him. His lordship had an audience of the Queen at Buckingham Palace, yesterday afternoon, when his inability to complete his administration was made known to Her Majesty, and, no doubt, the circumstances which led to this result. Shortly afterwards a royal despatch was forwarded from the palace to Lord John Russell, at his private residence in Cheetham Place; and, in all probability this lordship has been again commanded to reconstruct his Cabinet; though we do not find any intimation in the Court Circular that his lordship had any interview with Her Majesty in the course of yesterday. Both Houses of Parliament reassemble this evening, when it is confidently expected that Lord Stanley and Lord John Russell will be permitted by Her Majesty to give full explanatory statements as to the part each has taken in fulfillment of the duty imposed upon them respectively by their gracious Sovereign."

Cotton had advanced 14d.

The *Canada* had arrived at Liverpool. The rumor of an Austrian expedition against Switzerland was still prevalent.

It is stated in the *Turin* papers that the Northern powers have addressed a note to the Piedmontese government, demanding the expulsion of the Italian emigrants, the suppression of the liberty of the press, and an immediate reconciliation with the Court of Rome. The Piedmontese are actively engaged in defensive operations.

The Bank of England has reduced the rate of interest on stock loans to 2 1/2 per cent, while the minimum rate on commercial securities remains at 3 per cent.

There are various rumors with reference to the new Cabinet. It is said that a large body of Liberals have signed a declaration of support to a Government of which Lord Clarendon should be the head.

It is added that a reconstruction of the Russell Government is believed to be out of the question, and that Lord John is understood not to wish himself that Sir James Graham feels that he cannot lead the House of Commons, clever though he be, at the present crisis, without the aid of Lord John Russell, while it is his opinion at the same time that a dissolution offers no advantage, since it would probably collect such a Parliament as no man could manage, and would only be the precursor of a second dissolution.

A general belief, therefore, prevails an Administration in which Lord Clarendon, Lord Palmerston and Sir James Graham should be the leading personages, offers the only solution to the question.

The intelligence from France is wholly devoid of interest, notwithstanding that it comprises within its seven days' span the anniversary of the revolution of the 24th of February, which has passed over without any disturbance either in Paris or in the provinces.

General Anspick, the Ambassador at Constantinople, is to be removed to the Court of St. James's to fill the like office.

The conferences carried on by the representatives of the German States at Dresden, for the reconstruction of a central federal authority (both executive and legislative) "drag their slow length along" with all the characteristic national tediousness and uncertainty of practical purpose.

COPPER-FACED TYPE.—Several public journals in New York and Boston have made their appearance in a new dress, being printed on a type faced with copper, which is thus described by the *New York Courier and Enquirer*, one of the papers which has adopted it:—

"This type has been submitted to the process recently invented, by which it receives a copper face. The attempts which have been made to substitute a harder metal for the ordinary type metal, have hitherto been failures. But the method by which this type has been hardened has been so far tested as to induce us to venture upon experiment with our present font, probably the largest ever cast in this country, and we have reason to think that it will not disappoint our expectations; but of that we shall have more to say hereafter."

Mr. Holmes, of South Carolina, has not returned to that State, but goes to California to practice law.

RUN ON THE STARK BANK.—Loss of THE SPECIE DRAWN FROM IT.—Last week a person by the name of McDaniels, of Granville, Washington county, having had some difficulty with cashier Harmon, of the Stark Bank, of Bennington, collected bills on the bank to the amount of \$4,000, and presented them at its counter, with a demand for the specie, for the purpose of compelling it to close its doors. But in this McD. was disappointed. The bank was enabled to pay the specie (for every dollar of its notes presented).

Mr. McD. took the \$4,000 in specie to the hotel kept by Mr. Robinson on "the hill," with a request that Mr. R. would take it over to Dr. Heman Swift's house. Mr. Robinson says he had not an opportunity to do this until about 9 o'clock in the evening, when on reaching Dr. S.'s house, he found that the doctor was in bed and asleep, and not desiring to wake the doctor, Mr. R. says he placed the specie under his own bed.

In the morning following, the door of the room was found open and the specie missing.

Every effort was immediately made to find the stolen money, but so far without success.—*Troy Whig*.

THE Free Soil Convention met in this city on the 13th, and made the following nominations:

For Governor, Edward Harris; for Lieut. Governor, Stephen Wilcox; for Secretary of State, George L. Clarke; for Attorney General, Bailey E. Borden; for General Treasurer, George H. Church.

For members of Congress, Eastern District, Hiram Cleaveland; Western District, Lauriston Hall.

There was much opposition to making any nomination; some of the chief leaders being in favor of giving the vote of the party to the Democratic ticket, without making any display. It was argued on the other side, that the Democratic Free Soilers would vote for the Democratic ticket, and that it would be well enough to have something in the field to keep the Whig Free Soilers away from the Whig ticket; and then there are a score or two of Free Soilers who really mean to stand by their principles.—*Prov. Jour*.

It has been asserted, but the Boston Post does not believe it, that "one reason given why the Londoners omitted the use of wood in constructing the building for the World's Fair is, that there would be so many Yankees there they were afraid they would whittle it down."

TOO BAD, CHARLEY.—A dancing-master in New York has just turned divine. His object, we suppose, is to teach people how they may "shuffle off this mortal coil."—[*Bost. Post*].

THE famous Germania Musical Society have been engaged for the orchestra at Parodi's Concerts in Baltimore. Tickets \$1.50 each.

A HANDSOME PREMIUM.—The Massachusetts House of Representatives have passed, by a very large vote, a resolution offering ten thousand dollars to any one who will discover a remedy for the Potato Rot—to be subjected to an experiment of five years.

Three Cent Pieces are now being made at the Philadelphia U. S. Mint.—They are three-quarters silver and one-quarter copper, and about the size of a Spanish sixteenth, though considerably thicker.

It is rumored, says an exchange, that some of our most enterprising shoemakers purpose making up a new article of boot, the upper leather to be composed of the mouths of hard drinkers. It is supposed they will be perfectly impervious to water, and consequently have a great sale.

Lieut. John R. Goldborough, U. S. N., writes that during the recent passage of the frigate *Saratoga* from Rio de Janeiro to Saldaña Bay, Cape of Good Hope, being in lat. 28 21 S, and lon. 29 17 W, they sounded and obtained bottom at the depth of 3,100 fathoms, or three and a half miles.

The sounding apparatus was a 32 pound shot, slung with wire and attached to a small line 5,000 fathoms long and sufficiently strong to bear a weight of 60 pounds. The soundings were as good and fair as any he had ever seen obtained—the line up and down, and as taut as it could be, and when attempting to haul it on board, after procuring soundings, it parted about 50 fathoms from the surface. The time occupied in sounding was one hour and nine minutes.

Home Ticks, on being asked by George III. whether he played cards, replied, "I cannot tell a king from a knave."

BY TELEGRAPH.

NEW ORLEANS, March 7.

In the cases of Gen. Qullman, Gen. Henderson, and all others charged with participating in the Cuban Invasion a *notte prosequi* has been entered.

THE PEDIGREE OF WASHINGTON.—The pedigree of General Washington, as traced and illuminated by Mr. M. Pleson, carries back his descent to William de Hertburn, Lord of the Manor of Washington, in the county of Durham, England. From him descended John Washington of Whitefield, in the time of Richard III, and ninth in descent from John, was George, first President of the United States. The mother of John Washington, who emigrated to Virginia in 1657, and who was great-grandfather to the General, was Eleanor Hastings, daughter and heiress of John Hastings, grandson to Francis, second Earl of Huntingdon.—She was the descendant, through Lady Huntingdon of George, Duke of Clarence, brother of King Edward IV., and King Richard III., by Isabel Nevil, daughter and heiress of Richard, Earl of Warwick, the King-maker. Washington, therefore, as well as all the descendants of that marriage, are entitled to quarter the arms of Hastings, Pole, Earl of Salisbury, Plantagenet, Scotland, Mortimer, the Earl of March, Nevil, Montague, Beauchamp, and Devereaux.

An extraordinary surgical operation was lately performed which killed the patient. The physician is doing well.

He who follows in the footsteps of another will always remain behind.

RUN AWAY.

RUN AWAY from Block Island, on Friday evening, about 9 o'clock, five small boys, in a small row boat, about 10 feet keel, painted green with a white streak around her. The word "Hose" was painted on her stern side; the boat was a regular Block Island built craft, sharp at both ends. The boys are named George Jelley, aged 13 years; Henry, 12 years; Richard James Cronan, 11 years; Thomas Rose, 10 years; John, 10 years. It is not known what the object of the boys was in going away, and it is feared that they are drowned. Any person giving information in regard to the boys which will lead to their recovery, shall be suitably rewarded. Any information in regard to their bodies, if they have been drowned, will also be rewarded. HOLSEY C. LITTLEFIELD, New Sherborn, R. I.
Any information in regard to them may be sent to this office.

MORRILL'S.

IMPERIAL STOVE POLISH.
The Proprietor of the above article, having, by numerous experiments, tested its qualities, feels confident in recommending it for polishing Stoves, Grates, Furnels and all kinds of ornamental iron work, as superior to anything ever before offered to the public. It is not one of those artificial preparations which require constant use, and an exhibition of endless certificates, which are easily obtained, to make it sell; it relies solely on its own merits, asking but a trial to convince the most incredulous of its superior qualities. It is free from any ingredient which will rust the article polished, and no dust is made in the application. No smoke or disagreeable smell will be caused by heating the Stove after polishing. For Russia Iron, nothing can compare with it. Warranted to give satisfaction, if applied according to directions, or the money will be refunded.
Manufactured and sold, wholesale and retail, by J. E. MORRILL, Mulberry street, Fall River, Mass.

WILDER'S PATENT SALAMANDER SAFES, NO. 25 MERCHANTS' ROW, BOSTON, CORNER OF CHATHAM STREET.
The following letter from the proprietor of the Chatham Laundry, is a proof of the superior qualities of this Safe.

CHATHAM, May 10, 1848.
John E. Wilder, Esq.—Dear Sir: In reply to your note, I have the pleasure to say that the books and papers contained in the Safe I bought of you, were perfectly legible and unimpaired by fire at the burning of the Chatham Laundry, on the night of the 10th instant. There were no persons and bank notes in the drawers of the Safe, which had no appearance of having passed through fire. The Safe was exposed to an intense heat for several hours.

Respectfully yours,
STEPHEN SIBLEY.

The following letter from the Superintendent of the Maine Telegraph Company, is another proof of the superiority of JOHN E. WILDER'S Safe over all others:

BANGOR, Oct. 21, 1849.
John E. Wilder, Esq.—Dear Sir: The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph office in this city. It was in the fire six hours, the books and papers were unimpaired, and the damage to the Safe very trifling, although it fell from the second story to the basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to return it. It is still as good as new.

Respectfully yours,

JAMES EDDY.

In addition to the above certificates in favor of these Safes, I receive Diplomas and Silver Medals for the best Safe held in Boston.

MANUFACTURER AND PROPRIETOR,
25 Merchants' Row, Boston.
